SUMMARY

Software Engineering graduate passionate about building digital solutions through software engineering, user-centered design, and technology. Skilled in requirements analysis, problem solving, and collaborative software development. Committed to building digital products that improve user experience and support business goals.

EDUCATION

Umm Al-Qura University, Bachelor of Software Engineering
2026 | GPA: 3.87/4.00

PROFESSIONAL EXPERIENCE

Security Forces Hospital – Makkah, Web Development Intern | Jul 2025 – Sep 2025

- Developed 6 websites using HTML, CSS, JavaScript, WordPress, and MySQL.
- Built a database-driven web application using XAMPP and MySQL.
- Applied UI/UX principles, SEO practices, website testing, and troubleshooting to improve website usability.
- Prepared technical documentation and project reports throughout the internship.

Mashariq Company, IT Support Intern | Sep 2025 – Dec 2025

- Supported IT operations for over 150 organizational devices.
- Installed, activated, and updated over 120 Kaspersky antivirus licenses across organizational devices.
- Formatted and configured 10+ computers, including operating system installation and domain configuration.
- Diagnosed and resolved hardware, software, and network issues by responding to assigned technical support requests.

PROJECTS

Fawterha | Frontend Developer | Graduation Project

- Developed 26 mobile application screens using React Native for a digital receipt management application.
- Integrated end-to-end frontend workflows with backend REST APIs for authentication, receipt scanning, invoice management, reporting, and expense tracking.
- Implemented authentication, camera integration, receipt scanning, and invoice management features while ensuring seamless backend integration.
- Collaborated with backend developers to integrate APIs, test application features, and enhance the overall user experience.

Tech Stack: React Native, JavaScript, Node.js, Express.js, Supabase, Git, Figma, Postman

Mahfouz | UI/UX Design Project

- Designed user-centered interfaces and interactive prototypes using Figma.
- Created user flows, wireframes, and high-fidelity mockups for a lost-item reporting application.
- Applied UX principles to improve usability and navigation.

Tech Stack: Figma, Uizard

Student Services Application | Flutter Project

- Developed a mobile application using Flutter to support student services at Umm Al-Qura University.
- Designed application screens and user flows with a focus on usability and navigation.
- Implemented responsive user interfaces following mobile UI design principles.

Tech Stack: Flutter, Dart

CERTIFICATES

- Google UX Design Professional Certificate** – Coursera
- BSF Digital Academy Training Program** – Banque Saudi Fransi (BSF)
- Cybersecurity Awareness Course** – Umm Al-Qura University | Jun 2024

SKILLS

Technical Skills

React Native • JavaScript • HTML/CSS • Flutter •
WordPress • REST APIs • Git/GitHub • Supabase •
Node.js • Express.js • UI/UX Design

Soft Skills

Requirements Analysis • Problem Solving •
Communication • Teamwork • Agile Collaboration •
User-Centered Thinking

LANGUAGES

- Arabic-Native
- English-Fluent
